SIMLA, SATURDAY, JUNE 18, 1955

Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices Issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 18th June 1955

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.
2nd June 1955

- 54634. Kabushiki-Kaisha Toyoda Jidoshokki Seisakusho. Improvements in or relating to an apparatus for drafting slivers, roving or the like in spinning machines.
- 54635. SKF. Kugellagerfabriken Gesellschaft mit beschränkter Haftung. Procedure and mechanism for drafting of fibre strands.
- 54636. Cav. Enrico Scarani and Figli S. P. Az. Improvements relating to comb supports in combing machines drawing frames and like machines.
- 54637. Societe Anonyme dite: SOCIETE GENERALE ISOTHERMOS. Improvements in or relating to bearings for lubricating axle spindles from above.
- 54638. T. R. Vaithisvaran. A new process for rolling narrow strip and skelp.

3rd June 1955

- 54639. N. V. De Bataafsche Petroleum Maatschappij. Method for the production of controlled atmospheres and gas generator for carrying out this method.
- 54640. W. H. Miner, Inc. Draft gears.
- 54641. D. H. Joslin. Improvements in sugar floss making machine.
- 54642. Standard Telephones and Cables Limited. Improvements in or relating to dies for use in the extrusion of cable sheaths. (4th June 1954).
- 54643. Standard Telephones and Cables Limited. Improvements in or relating to safety devices on apparatus. (2nd July 1954).
- 54644. Standard Telephones and Cables Limited. Improvements in or relating to electron velocity modulation tubes. (14th July 1954).
- 54645. Brentford Electric Limited. Improvements in heating and cooling apparatus. (21st October 1954).
- 54646. A. Buchi. A delivery guide duct arrangement for centrifugal blowers or pumps.
- 54647. Robert Bosch GMBH. A method of press-forming hollow members.

4th June 1955

- 54648. Rohm and Haas Company. Improvements in textiles and sizing compositions.
- 54649. The Goodyear Tire and Rubber Company. Improvements in rubber chafer and method of making same.

6th June 1955

- 54650. Council of Scientific and Industrial Research. Process for the removal of pink colour from lake brines.
- 54651. J. L. Bedi. Game of indoor cricket.
- 54652. Technicolor Motion Picture Corporation. Improvements in or relating to image translating system.
- 54653. R. P. Sherer, R. B. Kraetsch and R. D. Sherer. Improvements in or relating to composition for deterring the desire for tobacco.
- 54654. British "Rema" Manufacturing Company Limited. Improvements in or relating to pre-heating of solid material. (11th November 1954).
- 54655. Pyrotenax Limited. Improvements in or relating to electric cables. (8th June 1954).
- 54656. The Goodyear Tire and Rubber Company. Improvements in rim.
- 54657. S. Reis. A fluid pressure operated servo-steering mechanism for motor vehicles.

7th June 1955

- 54658. J. K. Vyas. Sky advertisement.
- 54659. J. Dungler. Blowing device for the continuous treatment of lengthy materials by means of a gaseous treatment fluid.
- 54660. Chromium Mining and Smelting Corporation, Limited. Improvements in or relating to process for the reduction of carbon content of ferroalloys.
- 54661. Chromium Mining and Smelting Corporation, Limited. Improvements in or relating to method of making a low carbon ferrochromium material.
- 54662. E. K. Cole Limited. Improvements in or relating to tone control in audio frequency amplifiers. (3rd July 1954).
- 54663. Rotaflex (Great Britain) Limited. Improvements relating to the manufacture of hollow articles.
- 54664. A. M. Fitzpatrick, Jr. Safety razor.
- 54665. C. G. Preis and L. K. Kuhn. Safety razor.
- 54666. K. N. Malhotra. A device to administer disinfectant with the flow of water from the cistern.

8th June 1955

- 54667. Ruston-Bucyrus Limited. Improvements in or relating to well drilling apparatus. [Divisional date 2nd August 1954.]
- 54668. J. Handley and J. N. Browne. Improvements in pit props.
- 54669. The English Electric Company Limited. Improvements relating to regulating systems for dynamo electric machines. (16th June 1954).
- 54670. International Mac Gregor Organization (I.M.G.O.). Improvements in or relating to movable-panel devices for closing the top of vehicles such as railway trucks or the like as well as fixed installations and any other open spaces.

54671. Monsanto Chemicals Limited. Improvements relating to the preservation of tea. (9th July 1954).
54672. C. C. Engineering Industries Limited and J. D. Kinnear. Improvements in or relating to sugar cane harvesters. (24th June 1954).
54673. C. C. Engineering Industries Limited and J. D. Kinnear. Improvements in or relating to sugar cane cutters and harvesters. (5th July 1954).
54674. Montecatini Societa Generale per l'Industria Mineraria e Chimica Anonima. A method for the polymerisation of olefines and linear, high molecular weight polymers of olefines.
54675. The Asahi Chemical Industry Co. Ltd. Improvements in or relating to the production of phosphate fertilizer.
50792. R. E. L. Warburton and W. H. Sandford. Improvements in or relating to coupling devices for securing ropes, cables and the like. Accepted on 3rd June 1955.
- Having interposed between the bearing surfaces of free and anchored members a smooth bearing metal strip.*
50800. B. Bercovitz. Improvements in or relating to tubular structural elements. Accepted on 8th June 1955.
- Tubular structural element having two parallel flanges formed from the material of the tube to engage a gusset joint plate for forming joints with coplanar tubes, the cross sectional area of the tube where the flanges are formed is larger than the cross sectional area of the tube.*

Alteration of Date

50763. The claim to priority date has been altered from 4th February 1952 to 14th March 1953.
54140. Ante-dated to 5th January 1954 under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patent and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

50280. Stebler-Saner. Method for the manufacture of lamp shades, luminous and advertising signs, embossed articles and the like from synthetic resins. Accepted on 3rd June 1955.

Wherein the inlays are introduced into the mould between glass fleeces or painted thereon and then self-hardening resin filled in.

50763. Seetru Limited (formerly known as Seetru Products Limited). Improvements in fluid valves and sealing means (14th March 1953). Accepted on 3rd June 1955.

Plunger type two way hydraulic valves having atleast three hydrostatic sealing rings of rubber, a casing having a valve chamber, a valve plug carrying the rings.

50767. Alweg-Forschung G. m. b. H. Improvement in railway-tracks. Accepted on 2nd June 1955.

Centre of gravity or another predetermined point of vehicle guided in space along continuously extending curve; course of super elevation of track follows self-producing, preferably sine law; supporting structure laterally deviated correspondingly to guide predetermined point along the continuous regular curve.

50773. T. Hindmarch. Improvements in or relating to resilient couplings. (18th March 1953). Accepted on 3rd June 1955.

Resilient units deformable in circumferential direction disposed in circumferentially registrable elongated slots in relatively rotational members; each unit has resilient means acting upon the discs through two abutment members.

50791. R. E. L. Warburton and W. H. Sandford. Improvements in or relating to devices for securing ropes, cables and the like. Accepted on 3rd June 1955.

Wherein idle rope leg is supported in V-groove and working leg against sliding bearing surface (socket) of free member against anchored member (wedge).

50802. Societe dite: SAINT FRERES, Societe Anonyme. Device for pulling the cloth in a circular loom. Accepted on 8th June 1955.

The fabrik is subjected to the actions of two distinct pulling devices having two equal positive actions, one on one thickness, the other on the other thickness of said fabrik.

50891. National Lead Company. Storage battery active material. Accepted on 2nd June 1955.

A mixture of lead oxide and an amount of hydrophilic substance.

51002. Ciba Limited. Process for the manufacture of racemates of α -aryl- α -piperidyl-(2)-acetic acids and their functional acid derivatives. Accepted on 7th June 1955.

Treating α -racemates or α -antipodes of α -aryl- α -piperidyl-(2)-acetic acids or of functional acid derivatives thereof with alkaline agents.

51087. L. R. F. Harris. Improvements in or relating to electrical selecting systems. (20th January 1953). Accepted on 6th June 1955.

Comprising resistors, means for indicating a different pulse train by each combination of registers and means for applying the pulse trains to means responsive to one of the pulse trains to operate with set of register the combination indicating the one pulse train.

51229. National Lead Company. Treatment of titanium metal. (13th June 1953). Accepted on 3rd June 1955.

By contacting titanium metal with an acidic solution containing a soluble oxidizing agent having an oxidation reduction potential above that of standard hydrogen electrodes.

51532. Gregory Industries Inc. Improvements relating to electric arc pin brazing. Accepted on 3rd June 1955.

A quantity of brazing flux enclosed between one end of the pin and a piece of brazing metal secured to the end of the pin.

51571. Ruhrchemie Aktiengesellschaft. Improvements in or relating to waxes. Accepted on 8th June 1955.

The wax comprises a mixture of paraffins, wax acids and calcium soaps having at least 25 carbon atoms in the molecule.

51862. Ateliers De La Motobecane. Improvements applied to elastic telescopic forks. Accepted on 3rd June 1955.

The fixed bearing and guiding sleeves for its inner tube have play with respect to the fixed outer tube and clamped solely by axial grip.

51869. M. P. Bhargava. Improvements in or relating to processes for the production of pulp or cellulose from fibrous raw materials. [Addition to Patent of Addition No. 48905]. Accepted on 4th June 1955.

Producing cellulere or pulps from fibrous raw materials by alkaline or neutral reagents.

51958. Council of Scientific and Industrial Research. Manufacture of ethylene dichloride. Accepted on 3rd June 1955.

By passing ethylene and chlorine in a vertical tube reactor wherein cooled ethylene dichloride is showered from the top.

51979. R. Kaulen. Method and device for the preparing of printing forms, especially of printing cylinders, for copper plate printing. Accepted on 7th June 1955.
- Seamless coating of printing cylinder with colloid solution introduced into a container receiving the cylinder, rising from the bottom and then kept in constant level, and the cylinder is drawn up longitudinally and is subjected to heat and for flexible assembling form to be mounted on printing cylinder, the former is carried over a suction device adjacent to the contacting place with the cylinder.
52002. N. D. Barucha. Drum type dumper. Accepted on 7th June 1955.
- Comprising a drum having a longitudinal mouth formed along its length, stub shafts fitted one on each of the two opposite end walls of the drum, the shafts forming axle shafts of wheels supporting the drum.
52008. Ateliers De La Motobecane. Improvements relating to twistgrip devices for autcycles and the like. Accepted on 3rd June 1955.
- Conjugate control of throttle and decompressors by two sliders, one of which is displaced by a helical cam surface on a rotary sleeve.
52191. Ciba Limited. Process for the manufacture of sulphonamides. Accepted on 6th June 1955.
- Reacting aromatic sulfonic acid halides with amines in presence W. W-bis-dialkylamino-alkanes.
52535. Westinghouse Air Brake Company. Fluid pressure brake apparatus. Accepted on 3rd June 1955.
- Two chokes and a check valve included in the reservoir charging and overcharge dissipating communication.
52536. Westinghouse Air Brake Company. Fluid pressure brake apparatus. Accepted on 3rd June 1955.
- With means responsive to pressure of fluid in the control reservoir to close second charging communication whenever and so long as the pressure in the control reservoir exceeds a certain value.
52657. Council of Scientific and Industrial Research. Preparation of synthetic tanning materials from gas tar. Accepted on 4th June 1955.
- Sulphonating gas tar, decolourising resulting soluble gas tar sulphonate with aluminium or zinc and adjusting de-coloured product to a final pH of 3 to 4.
52700. Ciba Limited. New polyureas and process for making them. (9th September 1953). Accepted on 4th June 1955.
- The process consists in treating a compound of the formula $H_2N-R-NH_2$ or $H_2N-(R-NHCONH)m-R-NH_2$ wherein m stands for a whole number and R stands for a phenylene residue or two phenylene residues linked by a bivalent group, with a reactive carbonic acid derivative.
52705. Council of Scientific and Industrial Research. Modification of a process for the preparation of synthetic tanning materials from gas tar. [Addition to No. 52657.] Accepted on 4th June 1955.
- Decolourising soluble tar sulphonate in highly alkaline condition with aluminium.
52706. Council of Scientific and Industrial Research. Modification of a process for the preparation of synthetic tanning materials from gas tar. [Addition to No. 52657.] Accepted on 4th June 1955.
- Adding novolak resin to gas tar sulphonate.
52707. Council of Scientific and Industrial Research. Modification of a process for the preparation of synthetic tanning materials from gas tar. [Addition to No. 52657.] Accepted on 4th June 1955.
- Mixing novolak resin with gas tar and sulphonating the two together.
52708. Council of Scientific and Industrial Research. Modification of a process for the preparation of synthetic tanning materials from gas tar. [Addition to No. 52657.] Accepted on 4th June 1955.
- Mixing sulphonated novolak resin with gas tar sulphonate decolourised under alkaline conditions.
52709. Council of Scientific and Industrial Research. Modification of a process for the preparation of synthetic tanning materials from gas tar. [Addition to No. 52657.] Accepted on 4th June 1955.
- Decolourising gas tar sulphonate under highly alkaline conditions with zinc dust.
52887. Rheno A. G. Improvements in or relating to disinfection of water by ozone or ozone containing gaseous mixtures. Accepted on 4th June 1955.
- Disinfecting water with ozone within a water-conduit provided with means for keeping the aqueous and gaseous phases in intimate contact.
53117. Westinghouse Brake and Signal Company Limited. Improvements relating to automatic control valves for variable load braking apparatus for vehicles. (4th December 1953). Accepted on 7th June 1955.
- Wherein a valve device is provided for automatically controlling and maintaining the degree of vacuum in the upper chamber in accordance with the load on the vehicle.
53163. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a refrigerator comprising a refrigerator comprising a space having a lower temperature and a space having a higher temperature. Accepted on 3rd June 1955.
- The mean speed of the gas in the empty regenerator depends on the sound speed in the gas. The speed of refrigerator and the hydraulic diameter of wire material in the regenerator.
53278. Algemeene Kunstvezel Maatschappij Naamlooze Venootschap. A method of manufacturing fabric from smooth surfaced materials and a loom for carrying out the method. (28th October 1954). Accepted on 3rd June 1955.
- Impregnating the fabric made from smooth surfaced materials with a sizing material after weaving but before removing from the loom.
53768. Libbey-Owens-Ford Glass Company. Method of bending and cutting sheets of glass or like materials. Accepted on 3rd June 1955.
- Bending a pair of glass sheets simultaneously on a mold, securing them together, removing them as a unit, scoring one sheet to desired outline, removing it, and scoring the second sheet as the first.
54140. Ciba Limited. Pharmaceutical preparations containing the pure active isomers of α -aryl- α -piperidyl-(2)-acetic acid esters. [Divisional date 5th January 1954]. Accepted on 7th June 1955.
- Containing from 1 to 50 mg, per unit does of, b-racemate or b-antipode of α -aryl- α -piperidyl-(2) acetic acid ester.

Opposition Proceedings

(1)

An opposition has been entered by Kakmit Equipment & Sales to the grant of a patent on application No. 52477 made by Mrs. G. K. Doulatram and Mrs. D. K. Samtani.

(2)

An opposition has been entered by D. C. Thadani to the grant of a patent on application No. 52477 made by Mrs. G. K. Doulatram and Mrs. D. K. Samtani.

(3)

An opposition has been entered by Sawan Electrical Industries to the grant of a patent on application No. 52477 made by Mrs. G. K. Doulatram and Mrs. D. K. Samtani.

PRINTED SPECIFICATIONS PUBLISHED

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

48162. 48651. 48688. 48705. 48716. 48736. 48765. 48783. 48736. 48867. 49000. 49025. 49077. 49269. 49574. 49670. 49805. 49889. 50164. 50177. 50268. 50281. 50419. 50493. 50589. 50851. 50857. 50895. 50962. 51034. 51059. 51139. 51145. 51248. 51300. 51351. 51401. 51417. 51420. 51473. 51497. 51621. 51628. 51697. 51748. 51792.

CORRECTION OF CLERICAL ERRORS

(1)

Under Section 62 of the Indian Patents and Designs Act, 1911 certain clerical errors occurring in specification No. 50797 were corrected on 1st June 1955.

(2)

Under Section 62 of the Indian Patents and Designs Act, 1911 certain clerical errors occurring in specification No. 52196 was corrected on 6th June 1955.

Patents Sealed

47231. 49285. 49395. 49634. 49833. 49850. 49860. 49893. 49898. 49941. 50011. 50031. 50055. 50156. 50825. 51294. 51456. 51793. 51794. 51806. 51809. 51952. 51993. 52011. 52169. 52212. 52229. 52230. 52266. 52288. 52306. 52326. 52332. 52361. 52467. 52519. 52542. 52581. 52720. 52742. 52910. 52988.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Texaco Development Corporation, a corporation organized under the laws of the State of Delaware, United States of America of 135 East 42nd Street, New York 17, New York, United States of America, Manufacturers seek leave to amend the application and description in the specification in respect of patent application No. 49853. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. Philips' Gloeilampenfabrieken, a limited liability Company, organized and established under the laws of the Kingdom of the Netherlands, carrying on business as Manufacturers at Emmasingel 29, Eindhoven, Holland seek leave to amend the description in the specification in respect of patent No. 51789. Any person desirous of opposing the application for amendment, should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (Form 6 of the Indian Patents and Designs, Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Registration of Assignments, Licences Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:

23620 }
23621 } Massey-Harris-Ferguson (Manufacturing) Limited.
40650 }

31536—Dow-Mac (Products) Limited.

46448. Protona, Produktionsgesellschaft Fur Elektro-Akustische Gerate, G.m.b. H.

50202. }
50203. } Chandulal Dalsukhbhai Parikh and Baburay
51263. } Vasantry Royal.

Renewal Fees Paid

22082. 23700. 24218. 25492. 25619. 26629. 26631. 26632. 26704. 27209. 28226. 28878. 28922. 29827. 29955. 30026. 30062. 30063. 30153. 31085. 31125. 31363. 32128. 32873. 32952. 32953. 32954. 33067. 33210. 33908. 34829. 34899. 35189. 35222. 35229. 35239. 35260. 35571. 35679. 35713. 35714. 35766. 36853. 37514. 37515. 37602. 37665. 37815. 37853. 38054. 38103. 38132. 38218. 38269. 38585. 39784. 39835. 40027. 40160. 40172. 40291. 40301. 40302. 41399. 41498. 41520. 41522. 41523. 41526. 41534. 41540. 41573. 41641. 41783. 41831. 41832. 41872. 42089. 42107. 42162. 43263. 43292. 43303. 43338. 43423. 43694. 43745. 43757. 43804. 45247. 45333. 45334. 45384. 45410. 45428. 45467. 45496. 45511. 45546. 45576. 45577. 45585. 45594. 45631. 45755. 45918. 45919. 46078. 47933. 47980.

Cessation of Patents

26255. 32152. 34296. 39266. 41038. 41043. 42787. 44710. 44714. 44715. 44720. 44721. 44727. 44729. 44730. 44740. 44741. 45792. 46570.

Restoration Proceedings

(1)

Notice is hereby given that an application has been made under Section 16 of the Indian Patents and Designs Act, 1911 for the restoration of the following patent:—

No. 44905—Leopold Rado

The patent ceased on the 5th April 1954 owing to the non-payment of the renewal fee within the prescribed time and cessation of the patent was notified in the Gazette of India, Part III Section 2 dated the 17th July 1954. Any person may give notice of opposition to the restoration by leaving an application on Form 6 of the Indian Patents and Designs Rules, 1933, at the Patent Office, 214, Lower Circular Road, Calcutta 17, on or before the 30th July 1955.

(2)

Notice is hereby given that an order was made on the 1st June 1955, restoring the original patent numbered 26692 and dated as of the 17th July 1939, along with the patent of addition to the said patent, numbered 26693 and dated as of the 17th July 1939, granted to The Tata Iron & Steel Co. Ltd. for "Refractory Fire Clay Mortar", and "Improvements in or relating to the manufacture of refractory mortar" respectively.

(3)

Notice is hereby given that an order was made on the 1st June 1955, restoring the original patent numbered 26688 and dated as of the 17th July 1939, along with the patents of addition to the said original patent, numbered 41015 and 41016 and both dated as of the 1st March 1949, granted to The Tata Iron & Steel Co. Ltd., for "Improved method for the manufacture of refractory material".

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The date shown in each entry is the date of registration of the design including in the entry.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

Class 1. No. 81663. The Indian Cottage Works, Kotwali Road, Aligarh (U.P.), Indian, "Key", February 17, 1955.

Class 1. No. 82173. Willys Motors, Inc., a corporation organized and existing under the laws of the Commonwealth of Pennsylvania, located at Toledo, Ohio, United States of America, "Vehicle Front End Assembly", April 7, 1955.

Class 1. No. 82562. V. Chhibber & Co., a partnership firm, registered in Bombay (India), of 222-E, Bellasis Road, Byculla, Bombay 8, "Push Carriage Pram for children", May 14, 1955.

Class 3. Nos. 82091 to 82094. B. K. Plastic Industries of 33 Burtolla Street, Calcutta 7, West Bengal, India, Indian firm, "Bowls", April 2, 1955.

Class 3. No. 82235. Miss Rathi Nadir Wadia, of 19-A, Cubbon Road, Bangalore, Mysore State, India, Indian, "Display containers for Pessaries and Jewellery", April 16, 1955.

Class 3. No. 82421. Dunlop Rubber Company Limited, Rubber Goods Manufacturers, a British Company, of Fort Dunlop, Erdington, Birmingham 24, England, "A Type for a Vehicle Wheel", (2nd February 1955). May 2, 1955.
